MERCATOR PROJECTION
LOCAL DATUM
SCALE 1:50,000

TIDAL INFORMATION

Place	Position		Height above datum of soundings			
			Mean High Water		Mean Low Water	
	S. Lat.	W. Long.	Higher	Lower	Lower	Higher
			feet	feet	feet	feet
Andvord Bay	64°51'	62°37'	5.0	4.4	1.4	4.0
Port Lockroy	64°49'	63°30'	4.9	4.2	1.6	3.8

CAUTIONS

1. Shoal depths, additional to those charted, are reported to exist in the channel between The Wulfs and Fournier Island. This channel is considered dangerous to navigation.
2. The area portrayed by this chart has not been completely surveyed, and most of the data are of a reconnaissance nature only. Mariners are warned to exercise extreme caution when navigating in these waters.
3. Differences in latitude and longitude may exist between this and other charts of the area; therefore, the transfer of positions from one chart to another should be done by bearing and distances.
4. Detailed information has been omitted or generalized in areas covered by larger scale charts. In such areas, only the principal aids to navigation are maintained on this chart by Notice to Mariners.

NOTE

Limits of next larger and overlapping charts are shown in magenta. Users should consult the chart catalog for latest information.
