DATUM NOTE
Adjustments for plotting positions obtained from satellite navigation systems based on the World Geodetic System (WGS) cannot be determined for this chart.

CAUTIONS

1. Shoal depths, additional to those charted, are reported to exist in the channel between The Wolfs and Ryesyck Island. This channel is considered dangerous to navigation.
2. The area portrayed by this chart has not been completely surveyed and most of the data is of a reconnaissance nature only. Mariners are warned to exercise extreme caution when navigating in these waters.
3. Much detail has been omitted or generalized in areas covered by larger scale charts. In such areas, only the principal aids to navigation are maintained on this chart by Notice to Mariners.
