Mapped, edited, and published by the Geological Survey

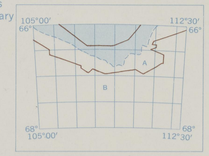
Compiled by the Geological Survey from aerial photographs by U.S. Naval Task Force 68, 1946-1947, with supplementary photography and geographic control by U.S. Naval Task Force 39, 1947-1948.

Sea ice limits and leads delimited only where usable aerial photographic coverage permits.

○ 50 indicates principal points of selected trimetrogon vertical photographs.

M17-32-1 indicates mission, roll and run.

COMPILATION DIAGRAM



A. Photogrammetric compilation.

B. Form lines by photo inspection beyond limits of possible extension of vertical control.
