
ELEVATIONS IN FEET

Spot elevations on this chart have been shown from the standpoint of safety for air/ground logistic support and have been selected from the best source material available. These elevations may be at variance with other existing maps and charts. In the absence of comprehensive terrain detail, elevations have been placed in their approximate known position. In all cases maximum values have been shown.

NOTE: It is requested that users of this chart indicate corrections and/or additions which come to their attention and notify the U.S. NAVY HYDROGRAPHIC OFFICE, WASHINGTON, D.C.

NOTE: For grid navigation or any other navigation grid reference, refer to the USAF plotting sheets indexed above.

TRANSVERSE MERCATOR PROJECTION
Scale 1" = 30 Nautical Miles (1:2,188,800) along Ficticous Equator (90° W Meridian or E Meridian as applicable or both).

AIR NAVIGATION CHART
