THURSTON ISLAND - JONES MOUNTAINS - WALGREEN COAST

LEGEND

Nunataks and peaks	
Exposed area	
Escarpment	
Steep slope on snow	
Crevasses	
Ice undulations	
Ridge top with foot of slope	
Ice front	
Coastline (definite)	
Coastline (indefinite)	
Flow lines	
Photo center (USGS flight numbers are indicated)	222
Control (elevation in meters)	1130

SKETCH MAP

Compiled by the Geological Survey in cooperation with the National Science Foundation in support of scientific activities of the United States Antarctic Research Program

Control by USGS 1960–1961

Compiled in 1967 from U.S. Navy trimetrogon photography 1966

This area will be mapped as part of the 1:250,000 scale reconnaissance series

Note: This preliminary edition has been submitted to the U.S. Board on Geographic Names for appropriate action

Polar Stereographic Projection
Standard Parallel 71° S
Scale 1:1,000,000

USGS CONTROL PLAN 1966-67-68

- ALTERNATE TRAVERSE ROUTE
- CAMP SITE
- PROPOSED INTERSECTED PEAKS
- PROPOSED TRAVERSE STATION
- ELECTRONIC DISTANCE MEASUREMENT
- PROBABLE STATIONS
- ASTRO STA.
