MAGNETIC NOTE

Owing to the nearness of the North Magnetic Pole, the force directing the compass needle is small. Under normal conditions too much reliance cannot be placed in the compass, and in times of magnetic disturbance it may become wholly useless.

Lines of equal magnetic variation for 1943
Aeronautical information AUGUST 1945

BY AAF AERONAUTICAL CHART SERVICE

Prepared at the direction of the Commanding General, Army Air Forces, for the Aeronautical Chart Service by the U.S. Coast and Geodetic Survey from best source material available, FEBRUARY, 1945
